

# WebLogic

## Realize the Benefit of OAS Migration to Fusion Middleware 11g with Mythics

Since acquiring the BEA WebLogic application server suite in 2008, Oracle WebLogic has been established as the preferred Oracle Application Server (OAS) platform. As Oracle begins to de-support the older versions of OAS, organizations utilizing the platform now have the opportunity to migrate from the current version and upgrade to WebLogic 11g.

### Let Mythics Manage Your Software Migration

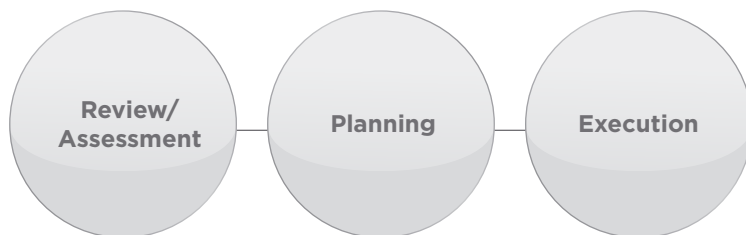

**Mythics** offers extensive experience in Oracle licenses, support renewals, training and consulting services.

Allow Mythics to take the confusion out of migrating from your existing Application Server software licenses to Oracle's WebLogic 11g. The Mythics team will partner with your organization to help identify products that are coming to "End of Life" and develop a comprehensive, and cost effective road map to get the most of your Fusion Middleware solutions.

### Mythics Consulting Removes the Uncertainty

**Mythics Consulting** offers a complete Oracle WebLogic 11g program that is designed to move your enterprise forward. The team's strong knowledge and real world experience in WebLogic 11g provides your enterprise a thorough background analysis and planning session for your migration. This planning session will deliver the roadmap and framework specific to your migration, ensuring the right solution for your enterprise.

### Mythics Consulting WebLogic 11g Program

### Conclusion

Mythics Consulting will work with your organization to understand the key elements of success for your upgrade solution. The Mythics team will provide the right approach based on your organizational needs and available budget. Make progress on your Weblogic 11g upgrade by finding the best solution for your enterprise.

### Oracle's WebLogic 11g Offers Improved Capabilities

Oracle's WebLogic 11g is the essential foundation for the application grid. The migration will offer powerful facilities to monitor and diagnose issues, reduce support risks and lower administrative costs.

Mythics will partner with your organization to fully manage and deliver your migration; therefore ensuring the right amount of people, processes and technology to your upgrade.
