

Oracle 11g Upgrade

with Mythics Consulting

Mythics Consulting offers a complete Oracle 11g Upgrade Program that is designed to move your enterprise forward. The Oracle Database 11g provides options and features that can bring dramatic improvements to the costs associated with managing and securing your database environments. Also, Oracle has released the only database machine that provides extreme performance for both data warehousing and online transaction processing (OLTP) applications – the Oracle Exadata Database Machine. In order for your enterprise to move to this powerful system, you must be on the Oracle 11g release.

The 11g Upgrade from Mythics Consulting is a comprehensive program designed to ensure the right solution for your enterprise. The program includes a thorough assessment that provides a documented roadmap for your upgrade process. Further, Mythics Consulting can also provide the services to deploy the upgrade for your enterprise. Mythics Consulting will partner with your organization to remove the fear and uncertainty of migrating from older Oracle database products to the 11g Database. Mythics Consulting is an Oracle Platinum Partner, Specialized therefore ensuring the right amount of people, processes and technology to deliver the right 11g Upgrade for your enterprise.
